## Summary

In the past, I have worked in live radio production, computing and customer service. Alongside this with my experience in quality assurance at XFour, I have developed an eye for details and a stickler for perfection.

## Experience

### Junior Project Manager

XFour IT Limited

Sep 2021 - Present (1 month +)

- Responsible for quality assurance, management, and development of web applications
- Experience with working with and working on Azure DevOps
- Gained knowledge of agile software developing workflow
- Organised distribution of work between a small team
- Worked alongside senior business leaders to maintain response times of under 24 hours for all customer requests

### Quality Assurance Director

XFour IT Limited

Jan 2020 - Sep 2021 (1 year 9 months)

- Responsible for quality assurance and testing of web applications
- Experience with working with and working on Azure DevOps
- Gained knowledge of agile software developing workflow
- Organised distribution of work between a small team
